Professional goal

My goal is to increasingly deepen my knowledge in technology and programming, to lead projects that not only solve real problems, but also inspire and innovate.

Training

- **Analysis and systems development** – Faculdade das Américas (FAM) conclusion: 12/2024
- **Development Web Full-Stack** – Trybe, 1,500 hours of classes focusing on: Introduction to software development, front-end, back-end, computer science, software engineering, agile methodologies and behavioral skills.
- conclusion: 02/2024.

Professional Experiences

- **Instructor Front-End.**(S**ummer instrução)** - company: Trybe (09/2023 - Current) - As a Front-End Instructor at Trybe, I am responsible for conducting individual and group technical monitoring sessions, synchronous content reviews and providing support via Slack to resolve queries. Topics covered include Fundamentals of Web Development, covering HTML, CSS, JavaScript and automated testing with Jest, Front-end focusing on Typescript, React and Redux, Back-end that encompasses technologies such as MongoDB, Docker, SQL and Node.js, and Computer Science.

- **Development Full-Stack** - company: Freelance (03/2023 Current) - Desenvolvimento de Sites e App web Full-Stack, de acordo com a demanda, usando tecnologias como, React, TypeScript, Docker, Node, CSS, Tailwind, SQL entre outras.

Key technologies

- Javascript
- TypeScript
- CSS
- API Rest
- Docker
- Express

- React
- Node
- SQL
- Tailwind
- Git/GitHub

Languages

- **Inglês -** intermediário
- **Português** - nativo

Recent Projects

- **Sistema de Agendamentos –** A project developed for a barbershop, it allows customers to reserve appointments for haircuts, shaves and more.
